

## RollPac

RollPac is a transport fitting for the accommodation of rolls and cylindrical products.

# RollPac

RollPac from buhl-paperform is a transport fitting that is made of 100 % recovered paper for the accommodation of rolls and cylindrical products. Thanks to the recesses on both sides of the molded fiber product, the products are stacked and fixed on the pallet so that they cannot slide. We provide various designs for different requirements.

## Benefits

- easy handling
- minimal load on inserted products
- secure transport
- space saving at the storage place thanks to the nestability of the RollPac
- environmentally friendly disposal
- manufactured from 100 % recovered paper

## Product overview

Suitable Ø mm	Product no.	Version	Dimensions L x W x H mm	Piece / pallet approx.	Height / pallet mm
164	3663002	6 cavities (folding)	1,170 x 170 x 95	336	2,150
195	3663001	5 cavities	1,175 x 200 x 120	250	2,150
210 – 230	3663007	5 cavities (folding)	1,170 x 220 x 45 (unfolded)	210	2,300
270 – 300	3663006	4 cavities (folding)	1,170 x 390 x 70 (unfolded)	100	2,100
370 – 400	3663005	3 cavities (folding)	1,170 x 390 x 80 (unfolded)	105	2,100
540 – 560	3663004	2 cavities (folding)	1,170 x 390 x 95 (unfolded)	115	2,100
570 – 600	3663003	2 cavities (folding)	1,120 x 390 x 95 (unfolded)	115	2,100
700 – 950	3663008	1 cavity	1,170 x 630 x 104	90	2,050

It goes without saying that we also develop individual solutions for special requirements.
