

RollPac

RollPac is a transport fitting for the accommodation of rolls and cylindrical products.

RollPac

RollPac from buhl-paperform is a transport fitting made of 100 % recovered paper for the accommodation of rolls and cylindrical products. Thanks to the recesses on both sides of the molded fiber product, the products are stacked and fixed on the pallet so that they cannot slide. We provide various designs for different requirements.

Benefits

- easy handling
- minimal load on inserted products
- secure transport
- space saving at the storage place thanks to the nestability of the RollPac
- environmentally friendly disposal
- manufactured from 100 % recovered paper
